Julie,

The Utah Ratepayers Association has reviewed the *Cover Letter* and *Proposed Scheduling Order* distributed by Rocky Mountain Power at 6:25pm yesterday and finds it to be flawed in that the Company's *Application* was not properly served on 17 July. In consequence, the effective date for new rates may be as late as 27 March 2009, rather than the 14 March date assumed by the utility, and the remaining dates should be postponed 14 days from those recommended by RMP.

Attached are a letter explaining these issues in detail, and an *Amended Proposed Scheduling Order*, which the Association respectfully requests that the Commission take into consideration in formulating its anticipated Scheduling Order in this matter.

Thank you,

Roger
