**Subject:** PacificCorp Rate Increase

I request that the 45 million dollar rate increase requested by PacificCorp not be given carte blanche and at the least be litigated. They have requested and have been given several rate increases of huge sums over the past few years and just keep coming to the table for more. It would be nice to have an accounting of where each past rate increase has been spent down to the dollar. I believe the utilities are another example of corporate America greed at our expense.

Lora Akers, Ratepayer
