

# Energy Gateway Transmission Expansion Plan DTG-3

|                                       |                         |
|---------------------------------------|-------------------------|
| <span style="color: blue;">■</span>   | PacifiCorp service area |
| Planned transmission lines            |                         |
| <span style="color: red;">—</span>    | 500 kV minimum voltage  |
| <span style="color: green;">—</span>  | 345 kV minimum voltage  |
| <span style="color: orange;">—</span> | 230 kV minimum voltage  |
| <span style="color: yellow;">●</span> | Transmission hub        |
| <span style="color: black;">●</span>  | Substation              |

This map is for general reference only and reflects the expansion necessary to construct Energy Gateway to its full capacity of 6,000 MW. It may not reflect the final routes or construction sequence.
