RECEIVED

To Whom It May Concern:

I am against any construction of high voltage power lines in Tooele City on the East bench. This would be a huge detriment to the residents of this community and more specifically the residents of the East Bench. We bought our home in this area because of the beauty of the surrounding mountains and we felt our home would hold it's property value. These homes are some of the most expensive homes in the valley and to run a power line through the middle of the area would pose an impact to the residents of the east bench and on their property value. While I understand Rocky Mountain Power's need for more power in the area, I feel there must be a better solution than to run a power line in the most exclusive area of the valley. Please vote no to the proposed route through the east bench.

Thank you,

Roland and Liz Dalton
