SUBJECT:

I would like to know what is going on with natural gas prices? why are they going up? Huntsman ask us to look at alternative fuels, I did and made a large investment to go to natural gas, and look what it is going to get me the same price and foreign oil. Who's pocket is this going in? cleaner air is not incentive enough to spend the kind of money I did.
Very upset and would like a response please.
thanks
