SUBJECT:

If the PCS is so far out of tune with the economy, corporate greed, and the need for independency from foreign oil to okay a %188 increase in go old North American natural gas, we need to replace the whole group.

I can't believe when America is in such a dire condition that a corporation would be bold enough to request such an increase. It makes you wonder, who the PCS is really working for. We have seen enough of corporate greed for a life time. What is next, a 50 to 100% increase in home heating fuel?
