SUBJECT:

I understand the public service commission has granted questar a rate increase for CNG to national rates. Utah has come so far with this, this past year.

As many as 10,000 vehicles brought into the state. as we all know this is reducing gas consumption , helping keeping all the air we breath cleaner, Raising the rate will waste all those tax dollars for the tax rebates. I have been proud of our Governor for his stance on enviromental issues and the actions he has taken . please stop this rate increase before it takes effect.
