SUBJECT:

Mr Huntsman:

I got caught up in the clean air fight for automobiles, being 80yrs old at the time I borrowed \$ 7,100.00 for the instalation cost (knowing for me there would be no Gov or State perks) and depending on the price of CNG, rather than gasoline to help pay back the loan but I am glad that I am one citzine has a clean air car to help my land I live in.

Please do what you can do to keep the CNG price so I will be able to pay the loan back before I die. (from the CNG price compared to the gasoline price)
