Subject: CNG rate hikes

January 10, 2009

Utah Public Service Commission

To Whom It May Concern,

My name is Cecilee Price-Huish and I live in Bountiful, UT. I am a long-time Questar customer (both at home and at my husband's workplace) and an NGV owner. I am writing today to urge you to reverse your Dec. 22 ruling that will place the cost of CNG at national market rates. I believe that this ruling was unfairly directed at owners of NGVs. I cannot understand the rationale, especially when most NGV owners and users of CNG are indeed Questar customers. Allowing NGV/Questar consumers to continue to utilize the Wexpro/National formula seems to be not only the "right" thing to do, but also the "fair" thing to do. I am part of the Wexpro family, as a Questar customer and when I hear that NGV owners are being singled out to pay the national market rate I cannot help but think that this is an unfair trade practice.

Please reconsider your ruling and reverse your decision by allowing NGV owners (most of whom are also Questar endusers at their homes and businesses) to continue to pay for their CNG at the 50/50 Wexpro/National formula used for all other ratepayers, regardless of the nature of the end use for the gas they are purchasing.

Respectfully Yours,

Cecilee Price-Huish
