RECEIVED

SUBJECT:  
Governor Huntsman,

I am writing this in regards to the recent decision by the Public Service Commission to arbitrarily increase the rates for natural gas to those of us who drive CNG vehicles. You are well aware of the costs associated with converting a vehicle to run on CNG or to purchase a vehicle that is a dedicated CNG vehicle from the factory (which is what I did). Now I am being told that the one big advantage to incurring this extra cost is being taken away. Words cannot express how unhappy I am that this is happening and that you, as our Governor, are allowing it to happen.

It is time that you stand up for all of us who heeded your admonition to drive vehicles which burn cleaner fuels. Just because the election year is now over does not mean that you are absolved from your responsibility to ensure that those of us under your watch are not taken advantage of.

I would like to know what you are currently doing to prevent this travesty and what you will do in the future to prevent shenanigans such as this from happening.

Thank you for your attention to this matter.

Erik
