Subject: PSC Complaint

Julie,

Dave Fiske at 801 359 4224 called to complain about the PSC and their decision on the area code. Mr. Fiske stated that he is opposed to dialing a 10 digit number for every call he makes and they should have set it up so people who live in the 801 area code should be able to just dial the number without the area code. Mr. Fiske indicated if we can send people to the moon the engineers should be able to figure this out to make it work.
