I have been informed that the Utah Public Service Commission is attempting to overlay a new area code in the same geographical area now covered by area code 801. It seems clear that this would be a great source of confusion and inconvenience. I urge you not to inconvenience thousands of ordinary citizens in order to cater to businesses who, as I understand it, are lobbying for the overlay without regard for the rest of the citizenry. Any step forward must be satisfactory to the majority of people living in the area in question.

Thank you,
Adrielle Herring
