Subject: NEW AREA CODE

CC: <hstephenson@utahsenate.org>, <ksumsion@utah.gov>

To whom it may concern,

I just wanted to express my concern for the new area code and how ridiculous it would be to have to dial the 7-digit code. I AM IN FAVOR OF SPLITTING THE BOUNDARIES... And having one area keep the the 801 code and then other areas get a new area code.. I don't care WHO keeps the code.... I understand the business owners would have to change their stationary but that is PART OF RUNNING A BUSINESS (having come from a father who owned his own Trucking company). I hope we can make a SMART decision and do what he have done in the past when we added the 435 area code...

Thanks for your time..
