Subject: Proposed Rate Increases

I just wanted to voice my concern with the proposed rate increase for Questar gas. An increase of about 36 percent would definitely put a lot of pressure on my family financially. I am a resident of Spanish Fork and in the winter keep my thermostat at 64 degrees in order to lower our gas bill. Even with that it is still on average \$150 a month. The proposed increase would definitely affect my family.

I just want you to understand what an increase would mean to the average citizen in Utah.

Thanks,

Mark Purcell
