F. RULEMAKINGS

DOCKET NUMBER R-29564 - Louisiana Public Service Commission, ex parte. In re: Possible amendments to the "Local Competition Regulations", as most recently modified by the General Order dated October 31, 2005 and Possible Amendments to the General Order dated March 18, 1994 requiring Commission approval of Transfers of Control of Public Utilities Subject to the Commission's Jurisdiction.

Staff seeks specific detailed comments no later than Friday, July 14, 2006 on the following modifications: Currently, the Commission's General Order dated March 18, 1994 requires all jurisdictional utilities and common carriers to seek the Commission's prior approval or non-opposition to any sale, transfer, lease or other encumbrance of any part of the utility's operations, assets, etc., regardless of the method used to accomplish said transaction, when the values involved exceed one percent of the regulated utility or common carrier's gross assets. When this Order was enacted, competition in the local and long distance telecommunications market was essentially non-existent. Thus, the Order only applied to a small number of telecommunications service providers in existence at that time. Since the adoption of the Commission's Regulations for Competition in the Local Telecommunication Market ("Local Competition Regulations") in 1996, a large number of telecommunications service providers have become certificated. These providers offer a large variety of competitive services in the local, long distance, wholesale and data markets. Additionally, through restructuring in the telecommunications industry, a large number of financing and transfer transactions have occurred involving these providers. While essentially all of these transactions are uncontested, and ultimately have no impact on end-user customers of the providers, they are nonetheless subjected to the requirements of the March 18, 1994 General Order. Finally, as these transactions require approval in a number of jurisdictions, and often contain aggressive timelines for completion, time is of the essence in issuing the Commission's approval or non-opposition. In order to streamline the approval and non-opposition process, while at the same time ensuring the public interest is protected, Staff proposes the following modifications to the Local Competition Regulations and the March 18, 1994 General Order.

Section 301 M. shall be added to the Local Competition Regulations to read as follows:

M. No TSP shall transfer control or ownership of any assets, common stock or other indicia of control of the carrier to any other person, corporation, partnership, limited liability company, utility, common carrier, subsidiary, affiliated company or any other entity or divide into two or more common carriers, where the values involved in such transaction exceed one percent (1%) of the gross assets of such regulated common carrier, or subsidiary thereof, without prior notice to the Commission. Such notice shall include information identifying the parties involved, a summary description of the transaction, and a public interest statement. Such transfer is deemed approved upon the filing of the required notice by a TSP, provided, however, that the Commission through its Executive Secretary shall have the right, within 15 days of the publication of the notice in the Commission's Official Bulletin, to initiate a proceeding and, after notice to and comments from the applicants and interested parties, reject, require modification of, or impose conditions on any transfer found to be contrary to the public interest. In the case of a corporate restructuring, internal transfer or any other change in form or name that does not result in a change of the ultimate ownership or control of the TSP or its assets, or in the case of a mortgage, encumbrance, or other financing transaction where the values involved in such transaction exceed one percent (1%) of the gross assets of such regulated common carrier, the TSP shall file a notice of such transaction within seven (7)

business days of the consummation of the transaction or change. Such notice shall include information identifying the parties involved, a summary description of the transaction, and a public interest statement. This section and the procedures outlined herein shall apply to all TSPs, excluding ILECs. Further, the procedures contained herein shall supersede the requirements of the March 18, 1994 General Order with respect to the covered TSPs.

The March 18, 1994 General Order shall be modified to include the following language as section 6.

6. This Order shall be superseded by Section 301 M. of the Commission's Regulations for Competition in the Local Telecommunications Market for the classes of TSPs contained therein. (NOTICE OF INTERVENTION OR PROTEST SHALL BE FILED WITHIN 15 DAYS AFTER THE DATE OF THIS BULLETIN AND COMMENTS SHALL BE RECEIVED NO LATER THAN JULY 14, 2006. If you have any questions regarding this matter, please call our office at 225-342-9888.
